---

### Foreign Languages

English (C1)(Intermediate)

### Education

#### **Namık Kemal University**

*Faculty of Engineering, Department of Computer Engineering*

- GPA: 2.85 / 4.0

**Tekirdağ/Turkey**  
[2023-Present]

#### **Dokuz Eylül University**

*Faculty of Engineering, Department of Mechanical Engineering*

- GPA: Transferred to NKU

**Izmir/Turkey**  
[2022-2023]

#### **Namık Kemal High School**

- GPA: 94 / 100

**Tekirdağ/Turkey**  
[2017-2021]

### Double Major (Minor Degree)

#### **Namık Kemal University**

*Faculty of Engineering, Department of Industrial Engineering*

- GPA: 2.5 / 4.0

**Tekirdağ/Turkey**  
[2024-Present]

### Experiences and Projects

#### **Migros Ticaret A.Ş – Information Technologies Security (IT) Smart Long Term Part Timer**

**\*Continued in the Smart Program as a part-timer** following my summer internship in the IT Security department. While continuing my university education, I took on greater responsibilities within the team, contributing to security monitoring, risk assessments, and automation of routine tasks.

[October 2025-Present]

#### **Migros Ticaret A.Ş – Information Technologies Security (IT) Internship**

Had the opportunity to join a rotation-based internship within the Information Technologies Security department of Migros. Each week focused on a different key area of enterprise cybersecurity operations.

[July 2025-September 2025]

- Monitored and analyzed security events using IBM QRadar SIEM, supporting AI-assisted alert correlation and incident response.
- Participated in KVKK & ISO 27001 aligned risk assessments and compliance processes.
- Gained hands-on exposure to access control, firewall configurations (FortiNet) and enterprise network security
- Observed ethical hacking and automated / AI-supported vulnerability assessment processes.

### **Flora Food Group (Upfield) Çorlu Production Plant Cyber Security Support**

*After my internship at the factory in Çorlu location of the company, which produced brands such as Sana, Becel, Rama, Flora, Calve and Hellman's in 2019, which was purchased from Unilever. I was included in the factory's Cyber Security Team as a result of the successful performance in the internship process.*

***\*I started working full-time with my education.***

[Nov 2024-May 2025]

- Network security monitoring and analyzing security breaches.
- Performing security vulnerability scans and reporting.
- Supporting the implementation of security policies.
- Siemens Automation Projects

### **Akbank Cyber Security Analyst Program**

*A program organized in partnership with Akbank and Cisco to train future Cyber Security Analysts.*

*Competencies I will gain during the program:*

[Jan 2025-Mar 2025]

- Completing the Cisco Networking Academy "Introduction to Cybersecurity" and "Linux Training" courses with a completion certificate and a verified digital badge.
- Completing the Cisco Networking Academy CCNA1 training with a completion certificate and a digital badge.
- Completing the Cisco Networking Academy CyberOps Associate training with a completion certificate and a digital badge

### **Shell İLERİDE Program**

[February 2025 – July 2025]

As a Project-Based Intern at Shell, I support research, data analysis, and project development processes while gaining practical knowledge on implementing sustainable practices. Through real-world simulations, interdisciplinary teamwork, and mentorship from experts, I enhance my skills in sustainability, innovation, and artificial intelligence. Additionally, I strengthen my project management and problem-solving abilities. In the later stages of the program, after completing the training phase, we will actively contribute to project development efforts.

### **Flora Food Group (Upfield) Çorlu Production Plant Internship**

*I had the opportunity to gain work experience in the IT, Human Resources and Maintenance departments by doing projects in the factory in Çorlu location of the company, which was purchased from Unilever in 2019 which produces brands such as Sana, Becel, Rama, Flora, Calve and Hellman's*

[July 2024-October 2024]

- Rental Car Tracking Software
- Human Resources Solutions
- Service Routes Plan
- Cafeteria Scoring System
- Working on Powerbi-PowerApps platforms

### **Marmara University – Data Analysis School, Artificial Intelligence Module**

[Fall 2025]

- Participating in the Artificial Intelligence module within Marmara University's Data Analysis School, initiated by the Turkish Statistical Institute (TÜİK).
- Data analysis using **IBM SPSS Statistics**
- **R programming** for data analysis and reporting (RStudio)
- **Big data processing and analytical reporting**

## **Aselsan Is Hayati 101 Program**

*With Aselsan's motto of educating young Turkish engineers, I had the chance to gain experience from the Turkish Defense Industry and our engineers working at Aselsan.*

***\*I successfully completed the program and received my certificate.***

[March 2024-June 2024]

Networking with leading engineers or managers in the sector who work or not working at Aselsan and benefiting from their experience

Opportunity to learn about the Turkish Defense Industry.

The opportunity to carry out projects in teamwork with my other young engineer candidate friends in the program

## **Namık Kemal University Robotaxi Autonomous Vehicle Project Teknofest Team**

*I work in both the mechanical and software teams.*

***We successfully represented our school as a \*Teknofest Finalist and were entitled to receive a certificate.***

[2023] – [2024]

In technical terms, to take part in the production phase of axle, chassis design, chassis designs and these designed parts

On the subject of software, lane tracking software and object detection algorithms

Learning to work in groups and teams

Time Analysis

Cost Analysis

## **Courses and Certificates**

Csystem Software Developers Association Online Java Programming and Application Course

Csystem Software Developers Association Online Introduction to Java Programming and Algorithm Course

Cisco CCNA Certificate

## **Programs**

Microsoft Office Programs , Solidworks Java , C#, Python Siemens Tia Portal , PowerPlatforms, Canva, R Studio, Weka,

## **Member Communities**

NKU Teknofest Team, NKU IEEE Student Society, Technology Team Foundation of Turkey (T3 Foundation), TNKU Teknofest Community (Management Team)

## **Hobbies**

Modern Dances, Astronomy, Table Tennis
